

Patterns in Nature

There are many patterns to be found in nature. These patterns are not random but are a result of how things grow and are organized.

As you explore the nature around you, see which of these patterns can you find:

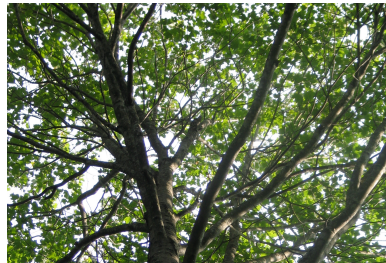

STARS

COILS / HELIX

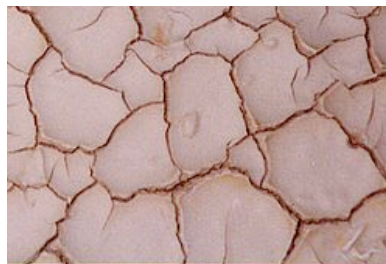

SPHERES

BRANCHING / FRACTALS

EQUIANGULAR SPIRALS

CRACKING

ARCHIMEDES SPIRALS

Were you able to find examples of each of these patterns?

Great observations!

Keep exploring and you may discover some others!
